INDEPENDENT AUDITOR'S REVIEW REPORT ON CONDENSED INTERIM FINANCIAL STATEMENTS

To the shareholders
Abdul Latif Jameel United Finance Company
(A Saudi Closed Joint Stock Company)
Jeddah, Saudi Arabia

Introduction:

We have reviewed the accompanying condensed interim statement of financial position of Abdul Latif Jameel United Finance Company (a Saudi Closed Joint Stock Company) ("the Company") as of March 31, 2026 and the related condensed interim statements of profit or loss and other comprehensive income, changes in equity and cash flows for the three month period then ended and other explanatory notes. Management is responsible for the preparation and presentation of these condensed interim financial statements in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34") as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these condensed interim financial statements based on our review.

Scope of Review:

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" as endorsed in the Kingdom of Saudi Arabia. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion:

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements are not prepared, in all material respects, in accordance with IAS 34 as endorsed in the Kingdom of Saudi Arabia.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
THREE MONTH PERIOD ENDED MARCH 31, 2026
(Expressed in Thousands of ﷲ unless otherwise stated)

1. GENERAL INFORMATION

Abdul Latif Jameel United Finance Company (the "Company") is a Saudi Closed Joint Stock Company, initially registered in the Kingdom of Saudi Arabia as a Limited Liability Company under Commercial Registration number 4030206631, (Unified number 7001715155), issued on 28 Dhul-Hijjah 1431H (corresponding to December 4, 2010).

The Company's head office is in Jeddah. The activities of the Company include real estate financing, financing of productive assets, finance leasing, consumer financing, financing for small and medium companies and microfinance activities in the Kingdom of Saudi Arabia.

On 16 Safar 1436H (corresponding to December 8, 2014), the Company received a license from Saudi Central Bank (SAMA) to undertake activities of finance leasing, financing of productive assets and consumer financing in the Kingdom of Saudi Arabia under license number 28/AU/201412. During 2024, the Company renewed its license for another five years until 13 Safar 1451H (corresponding to June 25, 2029).

During 2022, the Company applied for a real-estate and microfinance license, which was granted during the quarter ended December 31, 2022. Consequently, the Company executed a business transfer agreement for the transfer of assets and liabilities (including the contract with employees and customers) of Abdul Latif Jameel United Real Estate Finance Company ("ALJUREF") and Bab Rizq Jameel Micro Finance Company ("BRJMF"), both being the Company's affiliates that were engaged in real estate and microfinance businesses respectively.

a) Share capital of the Company

The share capital of the Company is divided into 100,000,000 shares of ﷲ 10 each and is owned as follows:

| | March 31, 2026 | March 31, 2026 | December 31, 2025 |
|---|---------------------------------------|---------------------------|---------------------------|
| | No. of shares of ﷲ 10 each | Amount ﷲ "000" | Amount ﷲ "000" |
| Abdul Latif Jameel Modern Trading Company Limited | 88,500,000 | 885,000 | 885,000 |
| Altawfiq United Company | 10,000,000 | 100,000 | 100,000 |
| Taif First United Company Limited | 500,000 | 5,000 | 5,000 |
| Bader First United Company Limited | 500,000 | 5,000 | 5,000 |
| Najid Al Raeda United Company Limited | 500,000 | 5,000 | 5,000 |
| | 100,000,000 | 1,000,000 | 1,000,000 |

The Ultimate Parent of the Company is Al Mumaizah United Company ("Ultimate Parent"). The Company, the Parent, the Ultimate Parent and other shareholders are wholly owned by Saudi shareholders.

b) Insurance arrangement

With effect from January 1, 2017, the Company entered into arrangements with Insurers for an initial period of six months, (renewed every six months) for three years. Upon each renewal, the premium rate, insurance charges and profit share was subject to be reviewed for any subsequent renewal period. As a result of this arrangement, the Company does not retain any insurance risk. During 2023, the said agreement was renewed for another three years (renewable every six months) with effect from January 1, 2023.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
THREE MONTH PERIOD ENDED MARCH 31, 2026
(Expressed in Thousands of ﷲ unless otherwise stated)

As per the terms of the insurance agreements, the Company is entitled to a profit share after the completion of three years from the expiry of the agreements, as agreed with the insurers. In respect of the underwriting years 2017 to 2019 that ended on December 31, 2019, the Company received a profit share during 2022 which was included in other income in the profit or loss of that year. In respect of the underwriting years 2020 to 2022, the Company received a profit share during 2024 which is included in other income in the profit or loss for the year ended December 31, 2024.

During 2020, SAMA issued the Rules for Comprehensive Insurance of Motor vehicles financially leased to individuals to regulate the relationship between the financing entities and their individual customers with regard to the insurance coverage on the financially leased vehicles. As per these rules, at the end of the finance contract between the lessee and the lessor, the lessor shall pay back the lessee the extra amount of premiums paid by the lessee or shall ask the lessee to pay the extra amount paid by the lessor to the insurer for the insurance policy.

As part of the periodic installments due from customers, the Company charges customers for insurance cover on the leased properties under lease contracts. Insurance charges represent cost of insurance (premium). Consequently, premiums are paid to the insurers for the insurance cover for the properties leased. This coverage is intended to hedge any potential risks linked with such financing comprising:

- Life insurance for customers financed to cover for the outstanding exposure in the event of death;
- Insurance coverage for financed properties against potential risks including maintenance needed from time to time.

c) Branches of the Company

As of March 31, 2026, the Company operates through 41 branches (December 31, 2025: 68 branches). The accompanying condensed interim financial statements include the assets, liabilities and results of these branches (including those of ALJUREF and BRJMF) as the beneficial owner of these branches is the Company.

2. ADOPTION OF NEW AND REVISED STANDARDS

2.1 Amended and revised International Financial Reporting Standards (“IFRSs”) Standards that are effective for the current period

The following new and revised IFRSs, which became effective for annual periods beginning on or after January 1, 2026, have been adopted in these condensed interim financial statements.

Their adoption has not had any material impact on the disclosures or on the amounts reported in these financial statements.

| New and revised IFRS | Summary |
|---|---|
| Amendments to IFRS 9 Financial Instruments and IFRS 7 Financial Instruments regarding power purchase arrangements | Under the amendments, the own-use requirements in IFRS 9 are amended to include the factors an entity is required to consider when applying IFRS 9:2.4 to contracts to buy and take delivery of renewable electricity for which the source of production of the electricity is nature-dependent; and the hedge accounting requirements in IFRS 9 are amended to permit an entity using a contract for nature-dependent renewable electricity with specified characteristics as a hedging instrument.. |
| Amendments IFRS 9 and IFRS 7 regarding the classification and measurement of financial instruments | Under the amendments, certain financial assets including those with ESG-linked features could now meet the SPPI criterion, provided that their cash flows are not significantly different from an identical financial asset without such a feature. |

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
THREE MONTH PERIOD ENDED MARCH 31, 2026
(Expressed in Thousands of ﷲ unless otherwise stated)

| New and revised IFRS | Summary |
|--|---|
| | The IASB has amended IFRS 9 to clarify when a financial asset or a financial liability is recognized and derecognized and to provide an exception for certain financial liabilities settled using an electronic payment system. |
| Annual Improvements to IFRS Accounting Standards — Volume 11 | These includes multiple amendments made to IFRS 1 First-time Adoption of International Financial Reporting Standards, IFRS 7 Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7, IFRS 9 Financial Instruments, IFRS 10 Consolidated Financial Statements, and IAS 7 Statement of Cash Flows. |

2.2 New and revised IFRS in issue but not yet effective and not early adopted

At the date of authorization of these condensed interim financial statements, the Company has not applied the following new and revised IFRS Standards that have been issued but are not yet effective:

| New and revised IFRSs | Effective for annual periods beginning on or after |
|---|---|
| <p>IFRS 18, Presentation and Disclosure in Financial Statements</p> <p>IFRS 18 provides guidance on items in statement of profit or loss classified into five categories: operating; investing; financing; income taxes and discontinued operations It defines a subset of measures related to an entity’s financial performance as ‘management-defined performance measures’ (‘MPMs’). The totals, subtotals and line items presented in the primary financial statements and items disclosed in the notes need to be described in a way that represents the characteristics of the item. It requires foreign exchange differences to be classified in the same category as the income and expenses from the items that resulted in the foreign exchange differences.</p> | January 1, 2027 |
| <p>IFRS 19, Subsidiaries without Public Accountability: Disclosures</p> <p>IFRS 19 allows eligible subsidiaries to apply IFRS Accounting Standards with the reduced disclosure requirements of IFRS 19. A subsidiary may choose to apply the new standard in its consolidated, separate or individual financial statements provided that, at the reporting date it does not have public accountability and its parent produces consolidated financial statements under IFRS Accounting Standards.</p> | January 1, 2027 |

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
THREE MONTH PERIOD ENDED MARCH 31, 2026
(Expressed in Thousands of ﷲ unless otherwise stated)

| New and revised IFRSs | Effective for annual periods beginning on or after |
|---|---|
| Amendments to IAS 21 - Translation to a Hyperinflationary Presentation Currency IASB amended IAS 21 to clarify the translation requirements when an entity's presentation currency is the currency of a hyperinflationary economy, but its functional currency is not, and vice versa. The amendments require entities to translate amounts using the closing rate at the date of the most recent statement of financial position when translating from a non-hyperinflationary functional currency to a hyperinflationary presentation currency. When the presentation currency ceases to be hyperinflationary but the functional currency remains non-hyperinflationary, entities apply the current IAS 21 translation method prospectively without restating comparative amounts. Entities must disclose the application of this method, including summarised financial information about foreign operations translated under the amendments, and disclose if the economy concerned ceases to be hyperinflationary. An exception is provided for entities applying IAS 29 to translate foreign operations in accordance with the amendments. | January 1, 2027 |

The management is in the process of assessing the potential financial impact of the application of the above-mentioned standards and amendments and do not expect that the adoption of the amendments and standards listed above will have a material impact on the condensed interim financial statements of the Company in future periods except for 'IFRS 18 - Presentation and Disclosures in Financial Statements'.

Other than the above, there are no other significant IFRSs and amendments that were effective for the first time for the financial period beginning on or after January 1, 2026 and relevant to the Company's operations.

3. MATERIAL ACCOUNTING POLICY INFORMATION

3.1 Statement of compliance

The condensed interim financial statements of the Company as of and for the three month period ended March 31, 2026 are prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34") as endorsed in the Kingdom of Saudi Arabia.

These condensed interim financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the Company's annual financial statements for the year ended December 31, 2025.

The results for the interim three month period ended March 31, 2026 are not necessarily indicative of the results that may be expected for the financial year ending December 31, 2026.

In preparing these condensed interim financial statements, the significant judgments made by the management are same as those that are applied to the financial statements for the year ended December 31, 2025.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
THREE MONTH PERIOD ENDED MARCH 31, 2026
(Expressed in Thousands of ﷲ unless otherwise stated)

3.2 Basis of preparation

These condensed interim financial statements have been prepared under the historical cost convention using the accrual basis of accounting, except for employees benefit liability which is carried at present value of defined benefit obligation, using actuarial present value calculations based on projected unit credit method, the measurement at fair value of 'Investment classified at fair value through other comprehensive income' (FVTOCI) and a segment of notes receivable portfolio, which have been measured at their fair values and both of which have been classified as 'FVTOCI'.

3.3 Functional and presentation currency

These condensed interim financial statements have been presented in Saudi Riyals (ﷲ) and have been rounded off to the nearest thousand ﷲ, except as otherwise indicated.

The accounting policies used in the preparation of these condensed interim financial statements are consistent with those used in the preparation of the annual financial statements for the year ended December 31, 2025.

4. CRITICAL JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

The preparation of the Company's condensed interim financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about the assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The accounting estimates, judgements and assumptions used in the preparation of these condensed interim financial statements are consistent with those used in the preparation of the annual financial statements for the year ended December 31, 2025.

18. PURCHASE AND AGENCY AGREEMENTS

The Company has entered into purchase and agency agreements (the ‘agreements’) with certain local banks in respect of certain financial assets comprising of finance lease, notes receivable and loans and advances to customers (collectively referred as “receivables”).

Under the terms of the purchase and agency agreements, the Company first sells the eligible receivables to the banks and then manages them on behalf of the banks as an agent for a monthly fee as per the terms of the agreements.

During the three month period ended March 31, 2026, the Company sold ~~ﷲ~~ 1,474.7 million (March 31, 2025: ~~ﷲ~~ 1,139.9 million) of its net receivables and the total amount received from the bank in respect of such sale was ~~ﷲ~~ 1,615.3 million (March 31, 2025: ~~ﷲ~~ 1,241.3 million). Upon sale, the Company derecognizes the receivables from its books and recognizes the difference as either gain or loss on derecognition of receivables (note (c)).

The following are the significant terms of the agreement:

- a) The Company continues to manage the sold receivables on behalf of the banks for a fee (agency fee). The total settlement of receivables to be made to the banks (as per the agreed cash flows), as an agent under purchase and agency arrangements amount to ~~ﷲ~~ 11,345.9 million as of March 31, 2026 (December 31, 2025: ~~ﷲ~~ 10,773.6 million).

The maturity analysis of derecognized receivables is as follows:

| <i>Under purchase and agency agreements</i> | Up to 1 year | 2 - 3 years | After 3 years | Total |
|---|---------------------|--------------------|----------------------|-------------------|
| March 31, 2026 (Unaudited) | 4,502,372 | 5,032,471 | 1,811,113 | 11,345,956 |
| December 31, 2025 (Audited) | 4,268,513 | 4,709,857 | 1,795,208 | 10,773,578 |

- b) Each agreement is supported by a “cash flow statement” which stipulates the principal amount and the monthly receivables falling due. Under the terms of the agreements, the Company, in the capacity of an agent, settles to the banks a monthly amount based on the cash flow statement. Any excess collections over and above the stipulated amounts and after retaining the amount for the next month’s repayment, are transferred monthly by the Company to the banks. The amount of the next month’s repayment is recognized as a liability and included in payable under purchase and agency agreements (note 12).

- c) A reserve is to be maintained out of the monthly receipts, which is to be distributed at the end of the term of the agreements after deducting the actual defaults and discounts due to premature terminations. The balance in the reserve account after deducting the actual defaults and discounts shall be retained by the Company as deferred consideration on sale of receivables. Any shortfall in the reserve account is to be borne by the banks.

- i. The deferred consideration receivable represents the continuing involvement in the transferred asset. Provision against expected defaults in respect of sold finance lease and notes receivable represents a guarantee provided by the Company under purchase and agency agreements to pay for default losses on a transferred asset. These have been disclosed as deferred consideration receivable (note 8) and provision against expected defaults and discounts in respect of sold receivables (notes 11 and 12).
- ii. The Company's net servicing assets and related liabilities are calculated separately for each agreement by calculating the present value of servicing assets, as per the terms of the agreement and by estimating the present value of servicing liability and related provisions. The net amount is classified as a net servicing asset or a net servicing liability on the condensed interim statement of financial position. This has been presented as follows:

Amounts arising from ECL - Significant increase in credit risk (SICR)

When determining whether the risk of default on a financial instrument has increased significantly since initial recognition, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort.

The Company groups its receivables into Stage 1, Stage 2, Stage 3 as described below:

Stage 1: When loans are first recognized, the Company recognizes an allowance based on 12 months ECLs. Stage 1 receivables also include receivables where the credit risk has improved, and the balance has been reclassified from Stage 2.

Stage 2: When a receivable has shown a significant increase in credit risk since origination, the Company records an allowance for the Lifetime ECL. Stage 2 receivables also include receivables, where the credit risk has improved, and the receivable has been reclassified from Stage 3.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
THREE MONTH PERIOD ENDED MARCH 31, 2026
(Expressed in Thousands of ﷲ unless otherwise stated)

Stage 3: Receivables considered credit impaired. The Company records an allowance for the Lifetime ECL.

Credit risk grades

The Company allocates each exposure to a credit risk grade based on a variety of data that is determined to be predictive of the risk of default and applying experienced credit judgment. Credit risk grades are defined using qualitative and quantitative factors that are indicative of risk of default. These factors vary depending on the nature of the exposure and the type of borrower.

Credit risk grades are defined and calibrated such that the risk of default occurring increases exponentially as the credit risk deteriorates so, for example, the difference in risk of default between credit risk grades 1 and 2 is smaller than the difference between credit risk grades 2 and 3.

Each exposure is allocated to a credit risk grade at initial recognition based on available information about the borrower. Exposures are subject to ongoing monitoring, which may result in an exposure being moved to a different credit risk grade.

a) Generating the term structure of PD

For the determination of term structure of PD for exposures, the Company does not recognize the deterioration of credit quality to intermediate-risk buckets/grades. Rather PD term structure has been created using cumulative PD methodologies.

The Company employs statistical models to analyze the data collected and generate estimates of the remaining lifetime PD of exposures and how these are expected to change as a result of the passage of time.

This analysis includes the identification and calibration of relationships between changes in default rates and macroeconomic factors as well as in depth analysis of the input of certain other factors (e.g. forbearance experience) on the risk of default include oil prices, inflation, manufacturing purchasing manager's index, money supply, GDP etc. For exposures to specific industries and/or regions, the analysis may extend to relevant commodity and/or real estate prices.

Based on external actual and forecast information, the Company formulates a 'base case' view of the future direction of relevant economic variables as well as a representative range of other possible forecast scenarios (see incorporation of forward-looking information). The Company then uses these forecasts to adjust its estimates of PDs.

b) Determining whether credit risk has increased significantly

The criteria for determining whether credit risk has increased significantly include quantitative changes in PDs and qualitative factors, including a backstop based on delinquency.

The credit risk of a particular exposure is deemed to have increased significantly since initial recognition, which is determined under basis of Company's staging criteria.

Using its expert credit judgment and, where possible, relevant historical experience, the Company may determine that an exposure has undergone a significant increase in credit risk based on particular qualitative indicators that it considers are indicative of such and whose effect may not otherwise be fully reflected in its quantitative analysis on a timely basis.

As a backstop, the Company considers that a significant increase in credit risk occurs no later than when an asset is more than 30 days past due. Days past due are determined by counting the number of days since the earliest elapsed due date in respect of which full payment has not been received. Due dates are determined without considering any grace period that might be available to the borrower.

The Company monitors the effectiveness of the criteria used to identify significant increases in credit risk by regular reviews to confirm that:

- the criteria are capable of identifying significant increases in credit risk before an exposure is in default;
- the criteria do not align with the point in time when an asset becomes 30 days past due; and
- there is no unwarranted volatility in loss allowance from transfers between 12-month PD (stage 1) and lifetime PD (stage 2).

No change has been made in the backstop criteria for all types of exposures, except as disclosed below.

c) Modified financial assets

The contractual terms of finance lease, notes receivables and loans and advances to customers may be modified for a number of reasons, including changing market conditions, customer retention and other factors not related to a current or potential credit deterioration of the customer. An existing financing and advances whose terms have been modified may be derecognized and the renegotiated financing and advances recognized as a new financing and advances at fair value in accordance with the accounting policy.

When the terms of finance lease, notes receivables and loans and advances to customers are modified and the modification does not result in de-recognition, the determination of whether the asset's credit risk has increased significantly is completed on the basis of the approved staging criteria.

The Company renegotiates finance lease, notes receivables and loans and advances to customers in financial difficulties (referred to as 'forbearance activities') to maximize collection opportunities and minimize the risk of default. Under the Company's forbearance policy, finance lease, notes receivable and loans and advances to customers forbearance is granted on a selective basis if the debtor is currently in default on its debt or if there is a high risk of default, there is evidence that the debtor made all reasonable efforts to pay under the original contractual terms and the debtor is expected to be able to meet the revised terms.

The revised terms usually include extending the maturity, changing the timing of interest payments and amending the terms of leasing and instalments covenants. Both consumer and corporate portfolios are subject to the forbearance policy.

d) Definition of 'Default'

A default is considered to have occurred with regard to a particular obligor when either or both of the two following events have taken place:

- The obligor is past due for 90 days or more on any material credit obligations to the Company including principal instalments, interest payments and fees.
- The Company considers that the obligor is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realizing security (if any).

The definition of default largely aligns with that applied by the Company for regulatory capital purposes.

e) Incorporation of forward-looking information

The Company incorporates forward-looking information into both its assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and its measurement of ECL. Based on advice from the external actual and forecast information, the Company formulates a 'base case' view of the future direction of relevant economic variables as well as a representative range of other possible forecast scenarios. This process involves developing two or more additional economic scenarios and considering the relative probabilities of each outcome. External information includes economic data and forecasts published by governmental bodies and monetary authorities in the Kingdom of Saudi Arabia and selected private sector and academic forecasters.

The Company has identified and documented key drivers of credit risk and credit losses for each portfolio of financial instruments and, using an analysis of historical data, has estimated relationships between macro-economic variables and credit risk and credit losses.

There have been no changes to the types of forward looking variables (key economic drivers) used as model inputs in the current year.

f) Measurement of ECL

The key inputs into the measurement of ECL are the term structure of the following variables:

- probability of default (PD);
- loss given default (LGD);
- exposure at default (EAD)

These parameters are generally derived from internally developed statistical models and other historical data. They are adjusted to reflect forward-looking information as described above.

PD estimates are estimates at a certain date, which are calculated, based on statistical rating models, and assessed using rating tools tailored to the various categories of counterparties and exposures. These statistical models are based on internally and externally compiled data comprising both quantitative and qualitative factors. Where it is available, market data may also be used to derive the PD for large corporate counterparties. If a counterparty or exposure migrates between ratings classes, then this will lead to a change in the estimate of the associated PD. PDs are estimated considering the contractual maturities of exposures and estimated prepayment rates.

LGD is the magnitude of the likely loss if there is a default. The Company estimates LGD parameters based on the history of recovery rates of claims against defaulted counterparties while also incorporating forward-looking information through Jacobs & Frye method. The LGD models consider the structure, seniority of the claim, counterparty industry and recovery costs of any collateral that is integral to the financial asset.

EAD represents the expected exposure in the event of a default. The Company derives the EAD from the current exposure to the counterparty and potential changes to the current amount allowed under the contract including amortization.

The Company measures ECL considering the risk of default over the maximum contractual period (including any borrower's extension options) over which it is exposed to credit risk, even if, for risk management purposes, the Company considers a longer period. The maximum contractual period extends to the date at which the Company has the right to require repayment of an advance or terminate a finance lease, notes receivables and loans and advances arrangement.

Given current economic uncertainties and the judgment applied to factors used in determining the expected default of finance lease, notes receivables and loans and advances to customers in future periods, expected credit losses reported by the Company should be considered as a best estimate within a range of possible estimates.

Updates to the ECL Methodology

- As of January 1, 2023, the Company has made the following material changes as a result of the change in the ECL Methodology and new SAMA rules:
- It has aligned with the SAMA guidelines the governance and controls framework over ECL estimation and reporting focusing on data integrity and model validation.
- Revised and more recent portfolio data has been used to compute the PD and LGD.
- Updated macroeconomic forecasts were used to update PIT PD and LGD estimates.
- The gross outstanding as of reporting date and each future prediction date (monthly) is considered as the EAD as opposed to net outstanding.

- Cool off periods have been defined with minimum time interval for which an account needs to stay in the worse stage before being transferred to a better stage after the criteria for classification into worse stage no longer persists.

Updates to the SAMA write-off rules

During 2020, SAMA issued rules governing credit risk exposure classification and provisioning. These rules set out the minimum requirements on credit risk exposure classification and provisioning. These rules shall be applicable to all finance companies licensed pursuant to finance companies control law effective from July 1, 2021. In a subsequent communication, SAMA deferred implementation of the rules to January 1, 2023, except for certain rules (relating to write offs) to be implemented on or before December 31, 2023.

Moreover, the new rules require the Company to write off any exposures meeting the following criteria:

- a) Unsecured exposures (including retail, micro and small enterprises and excluding mortgages) should be written off within 360 days once they are classified as Stage 3 exposures;
- b) Secured exposures (including retail, micro and small enterprises and excluding mortgages) should be written off within 720 days once they are classified as Stage 3 exposures;
- c) Mortgages (including retail, micro and small enterprises mortgages) and corporate exposures (including medium corporates as per MSME definition by SAMA) should be written off before 1,080 days from the date they are classified as Stage 3 exposures;

g) Governance and controls

In addition to the existing risk management framework, the Company has established a Steering Committee for oversight of IFRS 9 impairment process that includes representation from Finance, Risk and Information Technology (IT), as well as the involvement of subject matter experts in the areas of methodology reviews, data sourcing, risk modelling, and formulating judgements with respect to the aspects of significant increase in credit risk determination, macroeconomic assumptions and forward looking factors. The Framework and related controls have been approved by the board of directors.

h) Capital management

The Company's capital management objectives are to ensure the Company's ability to continue as a going concern and to provide adequate return to its shareholders through the optimization of the capital structure. The Company manages the capital structure and makes adjustments in the light of changes in economic conditions and risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

The Company monitors aggregate amount of financing offered by the Company on the basis of the regulatory requirements of Regulations for Companies and SAMA. SAMA requires finance Companies engaged in financing other than real estate, to maintain aggregate financing to capital ratio of three times. For real estate financing, the requirement for capital ratio is five times.

20. FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company's financial assets consist of cash and bank balances, net investment in finance lease relating to vehicles, net investment in finance lease relating to real estate, notes receivable, loans and advances to customers, due from related parties, net deferred consideration receivable, employees' receivables, amount due from insurers and other receivables. Its financial liabilities consist of due to related parties, accounts payable, payable under purchase and agency agreements, lease liabilities and amount due to insurers.

The fair values of the financial instruments are not materially different from their carrying values except for the net investment in finance lease and a segment of notes receivable portfolio measured at amortized cost.

The Company's management determines the policies and procedures for both recurring fair value measurement and for non-recurring measurement.

All financial instruments for which fair value is recognized or disclosed are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole, as follows:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The following table provides the fair value measurement hierarchy of the Company's financial assets as of March 31, 2026 and December 31, 2025:

21. GEOPOLITICAL DEVELOPMENTS IN THE MIDDLE EAST

During the three month period ended March 31, 2026, the Middle East region has experienced heightened geopolitical tensions and ongoing conflict in certain areas. The situation remains dynamic and continues to evolve, creating uncertainty in the regional and global economic environment.

The Company operates primarily within the GCC region and maintains investments and business relationships across several jurisdictions in the Middle East. As of the reporting date and the date of approval of these condensed interim financial statements, the Company has not experienced any material direct disruption to its core operations, assets, or supply chains.

However, the broader economic consequences of the ongoing conflict may include increased volatility in energy prices, fluctuations in foreign exchange markets, potential disruptions in regional trade flows, increased financing costs, and changes in investor sentiment. These factors may indirectly affect the Company's operations, financial performance, and valuation of certain financial and non-financial assets in future reporting periods. Accordingly, no adjustments have been made to the amounts recognized in the condensed interim financial statements as of the reporting date.

The Company continues to closely monitor the evolving geopolitical situation and has implemented appropriate risk monitoring and mitigation measures where necessary. Management will reassess the potential financial implications of these developments in future reporting periods as more information becomes available.

22. BOARD OF DIRECTORS' APPROVAL

These condensed interim financial statements were approved by the Board of Directors on April 26 2026 (corresponding to 9 Dhul-Qadah, 1447 AH).
